## SALIENT FEATURES

### Specially designed shank

Combination of curved & straight shapes reduce load on the tractor.

### Protective shear bolt

The shear bolt works as a mechanical fuse under overload conditions and protects shoe & shovel.

### High quality steel alloy

The shoe & shovel are made of high quality carbon steel, which results in low wear and tear.

### Dual hitch points

Specially designed hitch geometry provides two adjustable points for depth adjustment.

# SUBSOILER

Model - TS3001

### Heavy duty mainframe

The mainframe of this subsoiler is specially designed for heavy duty applications and high durability.
