Zindagi ka Best Decision!

A bountiful harvest of fruits and vegetables is a result of good care and nurture given to them. The tilling needs of various orchards and vineyards are different. To take care of these various needs of Interculture, presenting MAT Equipment, the all rounder of your orchard needs!

The equipment has multi utility frame that allows various attachments to be mounted on a single frame. This empowers you to attach 4 varied types of attachments for required tilling. Width of the attachment is adjustable based on the agronomy of row crops. Now maneuver through the narrow spaces of your orchard and get the job done easily, all with just one equipment.

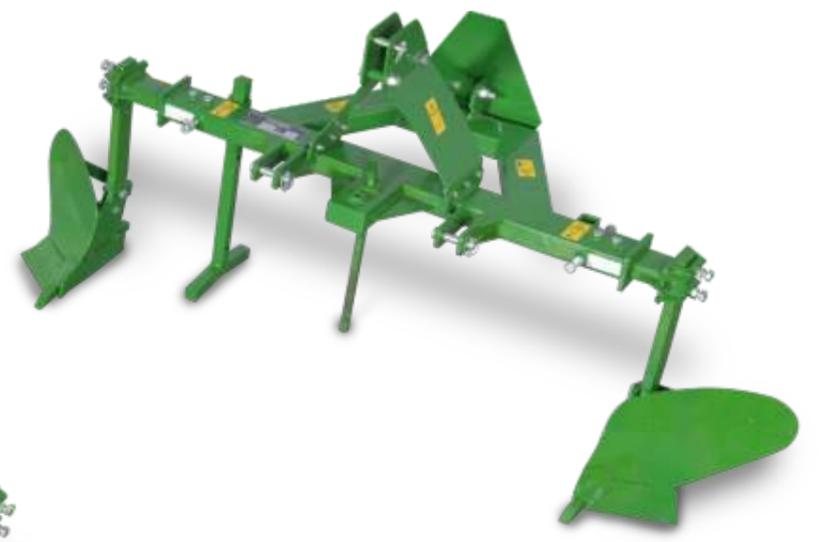

● V Notch Sara
Used for forming bunds,
water channels for irrigation

● Side Blade
Useful in raising the soil to
root zone of the plants

● Disc Harrow
Useful in tilling the soil,
helps in weed removal

● Wing Plough
Used for making trenches,
helps in applying fertilizers
and manures
