#Stay Connected With Your Tractor

Tractor Health Alerts

- High Engine Temperature • Water in Fuel
- Low Fuel Pressure
- Other Machine Health Alerts

Value for You

Provides machine security and allows the customer to work without interrupting.

Easily Locate Your Tractor

- Trace your Tractor Movement for the Day
- Realtime Tractor Status and Location

Value for You

Enhance tractor utilization by knowing current location, work progress and better managing work orders **remotely**.

Easy Field Work Documentation

- Field Work Documentation Provides Following Information
- Field Coverage • Fuel Consumption • Farmer Record
 - Job Record • Start and End time • Engine Performance Data

Value for You

- Digitized work documentation avoid friction with Farmers, No paper!
- Job specific performance data like fuel consumption provides more insights for better job execution.

Monitor Your Tractor

- Monitor Important Engine Parameters in Real Time
- Fuel Level • Engine RPM • Engine Hours • Location • Machine State • Engine Load

Value for You

Enhance **equipment productivity** and helps to ensure equipment operating in **right conditions**.

Easy Fleet Management

- Fleet monitoring with Location, Health and State
- Ideal for Farmers with Multiple Tractors

Value for You

Improving efficiency and productivity of **entire fleet through remote management**.

Protect Your Tractor

- Virtual Fence with Alerts
- Set Curfew Time for Tractor

Value for You

Get notification if tractor enters and exits the set geofence. Get alert unintentional machine operation outside of your working time.
